

Scope of Work

GENCO is soliciting worldwide logistics services and products to enable Government agencies to meet demands for supply and value chain management, transportation and distribution, and deployment logistic services.

The following is representative, but not all-inclusive, of the types of services or products that may be ordered as specified in individual task orders.

SIN 874-501 Supply and Value Chain Management Services

Services include but are not limited to planning, development, management, operation, and maintenance of logistics systems. These systems deal with acquisition support, movement and maintenance of resources (including the material requirements determination and acquisition planning, storage, movement, distribution, maintenance, evacuation and disposition of material and equipment); asset or property visibility and management; and operation and maintenance of the infrastructures that support these activities. GENCO can provide assistance and guidance to support an agency's assessment of the best combination of channels to create value for its customers. Services may include vendor-managed inventory systems; operation of private and/or Government-owned warehouses, stockrooms, or other storage facilities; shipping and receiving; staging and storage; packing and crating (excluding household goods); and design, reengineering, operation and maintenance of distribution and material handling equipment systems.

Task orders may include the following services:

- ❑ Material requirements planning
- ❑ Inventory management and operation
- ❑ Asset or property visibility and management
- ❑ Operation of warehouses, stockrooms or storage facilities
- ❑ Fulfillment systems and operations
- ❑ Configuration management
- ❑ Platform management
- ❑ Vendor/acquisition management
- ❑ Information processing systems analysis, design, and implementation
- ❑ Staging, shipping, and receiving
- ❑ Packing and crating
- ❑ Packaging, labeling, bar coding system consultation, design, implementation, operation and maintenance
- ❑ Operation and maintenance of distribution and or material handling equipment
- ❑ Design and installation of material handling systems
- ❑ System modernization consultation
- ❑ Expansion and consolidation studies
- ❑ Moving and storage (excluding household goods)
- ❑ Consultation on hazardous material storage and handling
- ❑ Warehouse and location management systems
- ❑ Recycling program management of warehousing materials
- ❑ Preservation and protection of specialized inventory or documents
- ❑ Maintenance, Repair and Overhaul (MRO) support
- ❑ MRO process management
- ❑ Property disposal management
- ❑ Logistics Strategic Planning services
- ❑ Logistics Systems Engineering services
- ❑ Global Integrated Supply Chain Solutions - planning and implementation
- ❑ Logistics Program Management services and support
- ❑ Supply Chain Logistics services, solutions, and support
- ❑ Logistics Business Process Reengineering
- ❑ Logistics Decision support solutions
- ❑ Logistics Performance Measures

SIN 874-503 Distribution and Transportation Logistics Services

Services include but are not limited to moving and storage, transportation system development and management, carrier management and routing, and freight forwarding (excluding household goods and small package services). These services may include planning and design, implementation, or operation of systems or facilities for the movement of goods, supplies, equipment or people by road, air, water, rail, or pipeline.

Task orders may include the following services:

- ❑ Distribution systems analysis, development and management
- ❑ Location modeling and distribution network analysis
- ❑ Fleet planning, operation and maintenance
- ❑ Carrier management and routing
- ❑ Freight forwarding, consolidation and management
- ❑ Tracking system analysis, design, operations and management

SIN 874-507 Operations and Maintenance Logistics Management and Support Services

Services provide the best practices, technologies, and methodologies to plan, design, manage, operate and maintain reliable and efficient systems, equipment, facilities and logistics infrastructures. Agency orders may include complete turnkey operations, maintenance and support services, or components thereof, as needed to improve equipment and logistics performance and reduce life-cycle costs. Contractor personnel carrying out these activities, to include management and operating staffs, are not involved with or responsible for the core business of the Federal agency placing the order.

Planning, designing, managing, operating and maintaining logistics systems, equipment, facilities and logistics infrastructures, specifically including services inherent to the performance of operations and maintenance for the support of logistics/support systems.

Task orders may include:

- ❑ Logistical Support Services
- ❑ Supply Services
- ❑ Equipment Asset Management and Maintenance
- ❑ Fleet Management and Maintenance
- ❑ Preventative Maintenance Planning
- ❑ Property Management and Maintenance
- ❑ Strategic and Tactical Planning
- ❑ Strategic Account Management
- ❑ Mobile Utility Support Equipment Operation, Maintenance and Repair
- ❑ Project Management, Integrated Facility Management, and Operations Management Support

SIN 874-599 New Services – Reverse Logistics

GIS's parent company, GENCO, is the recognized industry provider of Reverse Logistics Services, which is the process of planning, implementing, and controlling the reverse flow of goods through the supply chain for the purpose of capturing any remaining residual value through proper disposition management. GENCO's Internal Technology Team developed a proprietary software package to support this reverse flow of damaged, defective, obsolete or otherwise unwanted goods. R-Log®, GENCO's proprietary Reverse Logistics software, facilitates the process by capturing detailed information on each returned item and providing cost controlling efficiencies by directing the item to value disposition points which include: re-issuance, repair, donation, liquidation or destroy.

Task orders may include the following services:

- ❑ Software implementation
- ❑ Operations Management
- ❑ Asset Optimization Management (Liquidation)
- ❑ Transportation Management
- ❑ Value Inspection Process (Plug and Play)
